the party and the return from Ogden  
to Cincinnati will be made over the

Sage Hens Numerous—A. H. Moyses,  
deputy game warden, returned from

Arrested at Home—William Burke  
was arrested by Patrolman John Rus-  
sell at 1:30 o'clock this afternoon and  
is being held at the city jail on the  
charge of disturbing the peace. The  
arrest was made at Burke's home at  
Washington and Thirty-first streets,  
where, it is alleged, Burke arrived in  
a drunken condition and proceeded to  
cause trouble. When the patrol ar-  
rived, he had battered down a door  
and was punishing the piano.

## PROGRESS MADE ON THE LARGE BUILDINGS

Plasterers have begun work on the  
second floor of the Fred J. Kiesel  
building, Hudson and Twenty-fourth,  
and a force of concrete workers is  
working on the roof. The foreman states that the  
roof will be completed by Saturday  
and that interior work will be rushed  
as rapidly as men can be employed  
on the job.

The smokestack has been placed  
and the two large heating boilers are  
in the pit ready to set up and con-  
nect with the stack.

The cornice work is nearly done and  
the partitions on all but the top floor  
have been erected.

The two passenger elevators will  
be placed near the center of the  
structure leading from the basement  
to the upper floor, and, aside from  
the elevators, there will be two stair-  
cases, one near the passenger eleva-  
tors, the other at the west end of  
the south part of the building near a  
freight elevator in that part of the  
structure.

Forms for the first and second  
floors of the Eccles steel skyscraper  
will be ready for the concrete work-  
ers next Monday, at which time re-  
presentatives of the Dinwiddie com-  
pany say, "pouring" will begin. The  
work of placing forms for other floors  
will proceed as rapidly as a large  
force of carpenters can make head-  
way.

Just when plans for the extension  
of the building southward, over the  
Fred M. Nye store room, will be car-  
ried out, is problematical, but the  
prospects are that definite arrange-  
ments will be reached before many  
days. The Eccles' people are desir-  
ous of erecting the entire building at  
once, but because of lease holds  
cannot be done unless satisfactory  
terms can be made with the lessees.  
However, work will continue on that  
part of the structure now in the  
skeleton form and it will be finished  
to the upper floor. Most of the heat-  
ing apparatus is on hand and is ready  
for installation.

## FALLS FROM A TRAIN AND IS KILLED

While riding upon a Union Pacific  
freight train yesterday afternoon,  
Adolph Jensen, 20 years of age, fell  
and was killed as the train passed  
through the Aspen tunnel east of  
Evanston.

The body was found later and was  
taken to Evanston, Wyo. It is expect-  
ed that the body will be shipped to  
Ogden where funeral services will  
be held under the auspices of the local  
Danish Brotherhood of which he  
was a member.

## HARBERTSON TO MEET JORDAN ONCE MORE

Persons representing Chris Jordan,  
middleweight wrestling champion, are  
expected to come to Ogden this af-  
ternoon to sign articles for a return  
wrestling match between Jack Har-  
bertson and the champion. Joseph  
Goss will promote the match and it  
will be staged in the Orpheum thea-  
ter.

Friends of Harbertson maintain  
that the Greek will not be able to  
throw the local favorite, if a return  
match is secured. The Ogden  
wrestling is in good condition with  
the exception of the knee which was  
strained, but that injury is fast dis-  
appearing.

## PATHFINDERS TO EXPLORE A ROUTE

Loaded with ropes, picks, shovels,  
and all other necessities for a path-  
finder that is out to explore a new  
route, C. A. Wright and J. D. Larsen,  
representing the Weber club, left Ogden  
this morning to explore the proposed route  
from Wasatch in Weber canyon to Ogden can-  
yon.

If such a road can be found to be  
practical for automobiles, steps will  
be taken to make it a part of the  
Overland trail. Transcontinental tour-  
ists will then be able to see Ogden  
and the canyon without taking a  
side trip.

## TEACHERS ARE RETURNING TO OGDEN

Teachers of the city schools who  
have been away during the summer at  
schools or on vacation trips, are now  
returning in anticipation of the open-  
ing of schools. The list of summer  
addresses in the office of the super-  
intendent shows that 60 Ogden school  
teachers spent their summers away  
from the city.

If school begins on September 8, as  
present indications point to, the teach-  
ers will be called to meet on the pre-  
ceding Saturday and will be given  
general instructions concerning their  
work for the year. The assignment to  
the various schools will be made at  
that time.

## BABY IS CALLED BY DEATH'S MESSENGER

The home of W. H. Williams, head  
of Shupe-Williams Candy company  
and member of the board of educa-  
tion, was bereft at midnight last  
night when baby Ruth was taken  
from her deeply attached parents.

The little girl, not quite two years  
of age, had been ill of summer com-  
plaint just three short days when the  
messenger of death beckoned. Since  
then her mother and father have been  
inconsolable, as the child was their  
only one and her severe sickness  
of a year ago had endeared her to  
them even more than had her days  
been all sunshine.

The baby was a favorite among the  
large circle of relatives in the Wil-  
liams and Paine families and her sud-  
den taking off has conveyed sorrow  
to many homes.

The funeral will be held in the  
Third ward meeting house at 2 p. m.,  
Sunday.

## YELLOWSTONE NO LONGER CROWDED

City Ticket Agent Paul Boemer of  
the Union Pacific system received a  
letter yesterday from D. S. Spencer,  
assistant general passenger agent of  
the Oregon Short Line, announcing  
that the congestion in Yellowstone  
park, due to the great number of  
excursionists, has been cleared up  
and that no further trouble will be  
experienced in handling passengers.  
In great part the tie-up was caused  
by a change of schedule of a party  
of 185 people. They decided to re-  
main an extra day in the park and  
the stages were held. The hotels,  
too, were over-crowded for a short  
time.

## WEALTHY MAN IS FINED IN COURT

Randall Sage, a wealthy cattleman  
of Ontario, Ore., and Nevada was  
fined \$5 this morning by Judge W. H.  
Reeder, after Sage had pleaded guilty  
to drunkenness. According to the  
arresting officer, Sage had interfered  
with him in the pursuit of his duties.  
As brought out by the various  
statements in the court room this  
morning, Sage and a friend had been  
drinking and were shooting in a  
Twenty-fifth street gallery "for the  
beers." While they were engaged in  
their sport, a small boy entered and  
began to handle the guns. The girl  
in charge ordered the boy away and  
when he persisted in lifting up the  
rifles, she asked Sage's friend to  
frighten the youngster. The boy  
went away crying and Patrolman  
Blackburn inquired as to the trouble.  
The patrolman had warned the men  
against a disturbance. When the of-  
ficer made inquiries, Sage declared  
that his friend "had not said a  
thing." Thereupon he was arrested.

The court was a little doubtful  
concerning the man's statements, re-  
garding his business, but Sage con-  
vinced all by showing receipts for  
deposits of several thousand dollars  
in Ontario banks and documents  
showing that he has a shipment of  
cattle on the road.

## AGRICULTURE AT STATE SCHOOL

Agriculture is a new department to  
be added to the course of study of  
the State School for the Deaf and  
the Blind, Superintendent P. M.  
Driggs announced yesterday that  
Sterling E. Price, a graduate of the  
state agricultural college had been  
secured to have charge of the course.  
He succeeds William T. Stilwell, hor-  
ticulturist.

The decision to establish the de-  
partment of agriculture was reached  
when it was found that a third of  
the boys take up agricultural work  
after leaving the institution.

The modern brick dairy barn with  
cork brick on the floor is being con-  
structed. Bricklayers will commence  
work on the hospital building today  
or tomorrow as the foundation is al-  
ready completed. The old hospital  
will be made over for domestic sci-  
ence purposes. Among the new  
equipment for the kitchen is a new  
brick bake oven.

The new catalogue will be issued  
in a few days. All material is in the  
hands of a printer.

## BOMB FAILS TO EXPLODE

New York, Aug. 21.—Six sticks of  
what is believed to be dynamite were  
found this afternoon under a window  
of Mayor Gaynor's suite of offices in  
the city hall. They were found by  
the janitor of the building.

Fire Commissioner Johnson, pass-  
ing at the time, telephoned the bu-  
reau of combustibles and ordered one  
of the inspectors to come to the city  
hall to examine the find and deter-  
mine its nature.

After analysis, the inspectors re-  
ported that the stuff was "forty per-  
cent" dynamite—a quantity sufficient  
to have demolished the city hall—  
and that detonating caps were found  
to be placed in the proper position  
for exploding it. A fuse, a piece of  
Chinese punk and three burned  
matches were found later near the  
spot where the dynamite was picked  
up.

biscuits shaped like bones. It is evi-  
dent that Towser cannot look for

fakers.—Rutland News.

## RANCH HAND IS AGAIN IN JAIL

J. A. O'Neil, a ranch hand, who was  
one of the large number to receive  
a suspended sentence from Judge  
Reeder yesterday morning, found him-  
self before his honor this morning  
and was given five days. He was  
arrested in a house at Twentieth  
street and Washington avenue last  
night. The fellow declared he was  
inquiring his way to the canyon.

O'Neil told the judge that he had  
been working in Ogden valley and was  
on his way there late yesterday when  
he lost his way and inquired at the  
first house at which he saw a light.  
After knocking on the door and re-  
ceiving no answer, he said, he went  
into the hall and pounded on the  
walls. Later the owner of the house  
appeared and called the police, de-  
claring that there had been numer-  
ous fires in that neighborhood and he  
was taking no chances on the ac-  
tions of strange men.

## PRIZES WON AT THE LAGOON OUTING

The butchers and grocers of the  
city closed their places of business  
at noon yesterday and repaired to  
Lagoon, where the annual picnic was  
held. At 5 o'clock yesterday after-  
noon several big corn roasters were  
put into operation and approximately  
10,000 ears of corn were roasted and  
distributed to the hungry picnickers.  
Following the dinner various sports  
were indulged in. Baseball games  
and a musical program of merit  
added much to the pleasure of the oc-  
casion.

The winners of the various con-  
tests were as follows: Most popular

girls' race, under 6 years, Della Hart

## DIVORCES AND MARRIAGE LICENSES

In the district court this afternoon  
two divorce cases were filed, a final  
decree of divorce issued, three de-  
fendants in divorce cases defaulted,  
and, partially to balance the sheet,  
two marriage licenses were issued.

Rhea Boyle-Harris commenced suit  
against Frank B. Harris, asking di-  
vorce on the grounds of cruelty. The  
plaintiff averred that she married  
defendant April 15, 1912, and that for  
the past year or more he has been  
cruel and unkind to her.

The plaintiff alleges that the de-  
fendant is possessed of a violent and  
uncontrollable temper causing him to  
have "fits of passion," and that he  
is quarrelsome. She says that at  
times he calls her names and uses ob-  
scene language in her presence, and  
that he has falsely accused her.

Alleging that the defendant owns a  
certain promissory note payable to  
Ralph Hoag and Tella D. Harris,  
calling for the payment of \$1000, the  
plaintiff asks that they be made de-  
fendants in the action and be re-  
quired to appear in court and show  
what claim they have on the note.  
She further asks for \$75 attorney  
fees, costs of suit and reasonable  
alimony, together with the value of  
the note.

Mary Bowans in her complaint  
against Harrison Bowans, sometimes  
called James B. Bowans, says she  
married the defendant December 6,  
1911, and that for the past year he  
has failed to provide the necessities  
of life. The defendant is employed  
by the Denver & Rio Grande com-  
pany and the wife makes that com-  
pany a defendant for the purpose of  
calling it to account for the defen-  
dant's wages. She asks the court to  
restrain the company from paying

## WORLD'S MARKETS

Chicago Grain.  
Chicago, Aug. 21.—Corn again be-  
came the center of attention today,  
and the market nervous and excited,  
scored a substantial advance. The  
opening prices were 1-8 to 3-8c high-  
er, with December showing that range  
at 69 3-8 to 5-8c. December quickly  
jumped to 70c. Bull leaders took  
command early, some of the leading  
houses adding largely to their al-  
ready big holdings. Continued dry  
weather in a great of the corn belt  
and talk of a mostly reduced crop  
were the chief bull influences.  
Wheat shared in the upward course  
of corn, opening figures being 1-8 to  
3-8c higher. December started  
at 90 3-4@91c, and advanced to 91  
1-4c. Too much moisture in the  
northwest was a potent bull factor.  
Higher cables also helped lift prices.  
Oats rose with other grain. De-  
cember began at 45 to 1-4c, and  
advanced to 45 1-2c.  
Provisions hardened a little under  
support by packers after a steady  
opening with prices unchanged to 5  
cents up. First figures for January  
products were:  
Pork, \$19.65; lard, \$10.92 1-2; ribs,  
\$10.40.  
Wheat—The market, after slight  
reaction on profit taking, rallied but  
the recovery did not hold. The close  
was weak with December at 90 7-8@  
91c, a net gain of 3-8c.  
Corn—Selling on the bulge caused  
a slight weakening of values. The  
close was weak with December at 69  
1-4@69 3-8c, a net gain of 1 1-8c.

## BUILDING A HOME FOR INVESTMENT

requires careful planning, for  
an investment to be gilt edge  
must be easily negotiable.  
We've found that a little  
thought and attention given to  
original plans works wonders  
when it comes to selling a  
house. Buyers like style and  
individuality and these are the  
things that pay big dividends  
because they can be secured  
usually with little more first  
cost than the plain square de-  
signs. Doubtless you've often  
wondered why some houses  
sell more readily than others—  
that's the answer. If you're  
contemplating a new home  
maybe we can help you out  
with a suggestion if you'll  
bring us your plans. We've  
helped a lot of our townsmen  
save money on building and  
are also convinced enough to  
think that some of our sugges-  
tions on plans have later helped  
the sale of some of these  
homes. Let us help you.
